Reflection Time

What this means: We think carefully about what happened and how to fix it.

Why it matters: Reflection helps us calm down, learn from mistakes, and try again in a better way.

During reflection, you will have time to think about what happened and think about how your choices affected others. An adult will help you to decide how to put things right now and you can do differently next time.

Consequences

What this means: Everyone makes mistakes, but we must put them right.

Why it matters: Consequences help us learn from mistakes and make better choices next time.

Level 3	Warning, short loss of play, move seats, chance to put things right.
Level 4	For serious behaviour (hurting, bullying, swearing, breaking property) – time away from class, parents told, lose privileges, may miss events.
Level 5:	Very serious behaviour – may mean exclusion (missing school for a time) and special behaviour plans.
