

How to switch Google accounts so that your child is using their Pirton Hill account:

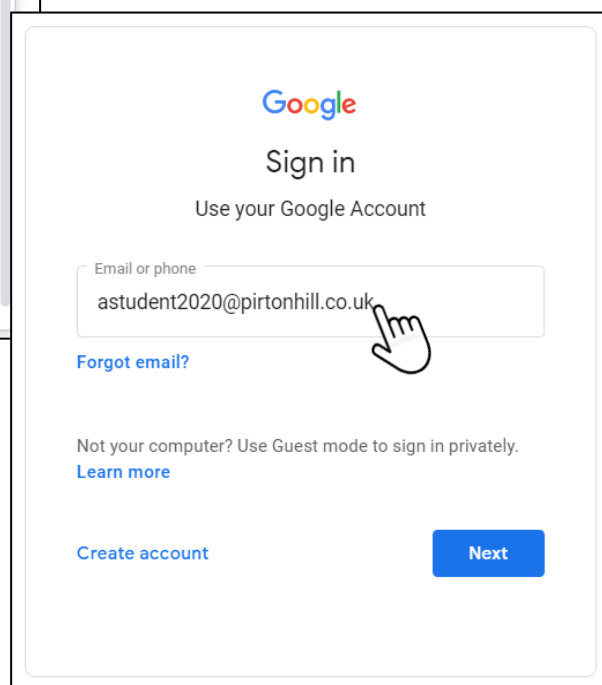

To begin, open Google up in your browser.

Then click on the login icon in the top right of the screen.

You will then get the option to 'Add another account' – click on this.

From here, you can now type in your child's new email address before clicking 'next'.

In the following window, type in the password given to your child.

You should now be logged into Google with the child's account and can then navigate to Google Classroom.
